

**IOWA DEPARTMENT OF NATURAL RESOURCES  
Animal Feeding Operations Listserv  
August 21, 2006  
For immediate release**

In this August 21, 2006 issue:

1. Animal producers need pollution plans and storm water permits

**ANIMAL PRODUCERS NEED POLLUTION PLANS AND STORM  
WATER PERMITS**

While many animal producers file for DNR permits, some are not preparing and implementing a pollution prevention plan as part of their storm water permit requirements. A storm water permit is required whenever a proposed construction project will disturb an acre or more of soil. More information about the requirements is available on the DNR Web site at <http://www.iowadnr.com/news/eco/06jun22eco.pdf>. Specific requirements of the storm water permit can be found at <http://www.iowadnr.gov/water/stormwater/index.html> under General Permit No. 2. Specific guidance for preparing a pollution prevention plan can be found on pp. 8 to 15 of [http://www.iowadnr.gov/water/stormwater/forms/2\\_ppp.pdf](http://www.iowadnr.gov/water/stormwater/forms/2_ppp.pdf).
